3. Products

Heading: From our fields to your freezer

Frozen Vegetables Artichokes, fava beans, cut green beans, okra, spinach, broccoli, cauliflower, sweet corn, taro, molokhia, sweet potatoes, grilled eggplant, onions, and gourmet turned vegetables. IQF frozen to lock in flavor, color, and nutrients.

Frozen Fruits Higher brix strawberries, pomegranate arils, red figs, guava, apricots, mango pulp, and Zaghoul dates. Harvested at peak ripeness and frozen for year round supply.

Ready to Eat Soups Yellow lentil, broccoli artichoke, and broad bean cream soups. Restaurant quality, ready in minutes.

Ready Meals Falafel paste and semi fried falafel, plus other value added frozen items for foodservice and retail.

Verified against 2018 to 2022 trade profiles. Confirm current live SKU list with Givrex before publishing, as offerings shift over time.

4. About/Story

Heading: Rooted in the Nile Delta since 1978 **Body:** Givrex was founded in 1978 by Robert Mansour, a pioneer of Egypt's frozen food industry whose roots in food export trace back to the 1950s. What began as a small operation producing green beans, carrots, spinach, and artichokes has grown into an established exporter of premium frozen fruits and vegetables, sourced from the fertile Nile Delta near Alexandria.

Today the company is led by the second generation of the Mansour family: Patrick, who oversees production and operations, Eric, who leads sales and marketing, and Monique, the financial controller. Together they carry forward their father's founding principle: "Do it well, otherwise don't do it at all."

Verified: Robert Mansour founded the company in 1978 and passed away in 2018. Leadership passed to his three children: Patrick (production/operations), Eric (sales/marketing), Monique (financial controller). Earlier drafts only mentioned two siblings; corrected here.

5. Why Givrex

Heading: Why food companies choose Givrex

- Decades of expertise: pioneering Egypt's frozen vegetable and fruit industry since 1978
- The widest artichoke range in the region, with 10 varieties from bottoms to hearts, halves, dices, and triangles
- Agronomists and technical experts oversee every field before harvest
- Ongoing investment in production, including automated leaf-processing lines and

modern freezing equipment

- A regular exhibitor at major international trade shows, including SIAL Paris and Anuga Cologne

Verified: agronomist oversight and equipment investment confirmed via 2018 interview; SIAL and Anuga exhibitor presence confirmed via Anuga's own exhibitor directory and multiple SIAL show recaps.

6. Export markets

Heading: Serving tables across the globe **Body:** Givrex exports to Europe, North and South America, Australia, Japan, the GCC, and other Arab nations, alongside a strong presence in the domestic Egyptian market. The company's regular participation in SIAL and Anuga keeps it closely connected to buyers across these regions. **Link:** Become a distribution partner →

Verified: this exact list of regions appears consistently across multiple sourced profiles (frozenfoodsbiz 2018 and 2022, nutrada.com).

7. Contact/Quote request

Heading: Ready to bring Givrex to your market? **Body:** Whether you're sourcing for retail, foodservice, or industrial use, our team is ready to talk specifications, volumes, and shipping. **Primary CTA:** Request a quote **Secondary:** Or email us directly at [contact email]

Note: publicly listed contact is Eric Mansour, Givrex Building, Street 38, PO Box 747, Smouha, Alexandria, Egypt. Phone and email on file may be outdated; confirm directly with Givrex before publishing.

Outstanding items to confirm directly with Givrex

- Current live product catalog (sourced list is from 2018 to 2022 trade press)
- Current phone number and email (listed number dates back several years)
- Whether "leek cream" soup is still active or was replaced by "broad bean cream" (more recent 2022 source lists broad bean; older sources list leek)
- Any certifications (HACCP, ISO, etc.) to include in the Why Givrex section
